PITCHING SESSION

Pitching presentations of the finalist teams (12:00-13:30)

SECOND EVALUATION

Second evaluation Jury → Winners (3rd, 2nd, 1st)

About Pitching

- **What is it?**

The basic meaning of pitching is **throwing an idea at your audience, hoping to score a hit**, as in baseball. It can also be thought of in terms of music (like a pitch change), or electronics/science.

In the context of PowerPoint presentations, a pitch is a special type of sales presentation, through which you introduce your company, product or idea and it is short.

- **How long is it?**

Usually very short (3-5 minutes)

At this Hackathon you'll have 10 minutes allocated - which can be extended to maximum 12 minutes.

- **What's its purpose?**

Through your pitching presentation you have to convince your audience of your idea and attract potential investors. So you need to plan really carefully what you want to say.

Pitching Elements

- **Slides**

The slides should be the support for your speech and not the other way around. They should help you recall the details of the respective ideas so you can “speak” them to your audience.

- **Speech**

The speech should be seamless (flow like a river). It should also be enthusiastic so that the audience can feel that you believe in what you’re presenting them.

- **Style**

Each and every one has their own style and that’s a good thing.
You’ll have to emphasise the good traits of your style to make the Pitch a success e.g. be open, funny, smiling, but also don’t forget why you’re there, in front of the Jury members, so don’t be inert, move, use your hands to explain.

Pitching Slides - Template

- A Pitching Deck **template** [[SDV Hackathon 2026 - Pitching Slides Template](#)] was created for you to use. It will be available in your Team's Repository nearby your Solution Plan.
- This template is also a **guideline**, to show you how you should structure your presentation.
- **Deadline! Finish and Upload your own Pitch Slides to your own repo until 08.10.2026 (11:00 CET)**

Pitching Slides

The slides should be

- Clean
- Concise
- Consistent
- Comprehensive
- Visual
- Attractive
